

## Beckton CHiP

### PLANT ASSISTANT

October 2018

---

#### Our Business

px operates on a 24 hour, 7 days a week basis, across a diverse range of low and high hazard industries including power, gas, fuel storage & also in energy trading. The group is continually expanding, providing operations, maintenance and management services and solutions throughout the UK and services to other global businesses and has experience in areas such as the Middle East, Europe and South America.

#### The Opportunity

This is an exciting opportunity to join the team at our Beckton site, the role of A Plant Assistant. Working alongside an operational shift team, the Operations Plant Assistant is responsible for supporting the safe, efficient operation of the Beckton CHiP primarily through managing safe and effective road tanker movements at the Plant and ensuring appropriate testing and discharge of fuels, whilst supporting the wider operational shift teams with tasks ranging from Plant starts ups to spares management.

#### Minimum Requirements:

- GCSE Maths and English at grades A-C.
- NVQ 2 in process, electrical or mechanical disciplines
- Working in and contributing to a continuous process operational environment.
- Housekeeping
- Working as and contributing to a team.
- Meeting performance and work targets.
- Taking readings and uploading data
- Fork lift truck driving.
- Appreciation of Safe System of Work processes and procedures:
- Permit to work
- Risk assessments and method statements
- Appreciation of plant upkeep.
- Experience in Microsoft Office.

***In order for your application to be progressed, all candidates must meet the minimum requirements of the job role person specification.***

#### More information:

Can be found in the job description & person specification for this role/position.

**Closing date: 19th October**

***Please note this role may close early or be extended depending on the volume of applications.***
